Biomass Boiler Servicing...

As a Service only company specialising in providing Biomass Boiler Services, we focus on your needs and don't have the distractions that installation companies may have. With tailored service contracts available and a great amount included in a Standard service, our Biomass service offerings are among the best.

Servicing your boiler regularly can help;

- Extend the lifetime of your system
- Improve or maintain efficiency levels
- Help reduce fuel consumption
- Improve your ROI, through less wasted energy

Did you know that ensuring your boiler is regularly maintained is also a requirement of the RHI (Government Incentive)?

Providing local service Nationally
